**Artificial Intelligence:** Any factual information within this resource is accurate and based on current research as of November 2025. Any assumptions made in the analysis of this resource are not reflective of the position of Twinkl in relation to AI. Twinkl neither endorses nor is affiliated with any AI system referred to in this resource. AI systems are only as good as the data they are trained on and are vulnerable to bias and can provide incorrect information, therefore human editing is always advised. In order to ensure privacy is maintained, personal and sensitive data must not be entered into AI tools. Twinkl cannot be held responsible for the use of external AI tools; protecting children from harmful content online, including that generated by AI, should be of the utmost importance. As always, please ensure you check the suggested age-rating for any AI tools you choose to use.

**Scissors:** To ensure the safety of the learners in your setting, it is your responsibility to assess whether adult supervision or other appropriate safety measures are required when using scissors.

# My Smart Rules

AI technologies can be really useful but they must be used safely and responsibly. What smart rules can you think of to keep yourself and others safe when using AI technologies?

Use the template and design a poster with top tips for how we can use AI technologies safely.

Your poster could include information about:

- voice assistants
- smart speakers
- checking information
- checking for mistakes
- protecting personal information
- talking to trusted adults

You might want to use some of these pictures on your poster.

# My Smart Rules

Safer  
Internet  
Day 2026 | Tuesday  
10 February

Coordinated by the UK Safer Internet Centre
