

In student council we talked about the school outings they had been on last term. Everyone said

how much they enjoyed the outings and talked about things they had done like using the till and helping

to pack bags of shopping at Asda, looking at lots of the different things at Heligan, going on a train ride and

looking at all things that happen at a train station etc.

I asked them to ask their class 3 questions

One - What school trip have you enjoyed the most?

Two - How can we make the trips better for everyone?

Three - Where would you like to go on your next school trip?
