Song

What's the weather, what's the weather like today?

Like today?

We'll look with our eyes

We'll listen with our ears

Let's find out

Let's find out!

It is wet, it is wet
Rain falls down
Rain falls down
Pitter, patter rain drops
Pitter patter rain drops
Puddles all around
On the ground.

It is hot, it is hot
Sun shines down
Sun shines down
Hot and bright it gives us light
Hot and bright it gives us light
Sun shines down
Sun shines down.

It is windy, it is windy
Blow wind blow
Blow wind blow
Blow the clouds and blow the trees
Blow the clouds and blow the trees
Feel the breeze
Feel the breeze

It is snowing, it is snowing

All around, all around

Falling softly to the ground

Falling softly to the ground

White snow flakes

White snow flakes

I hear thunder, I hear thunder

Rumble, bang, crash

Rumble, bang, crash

Watch now for the lightening

Watch now for the lightening

A bright yellow flash

A bright yellow flash.
