WALT: explore the role of firefighters

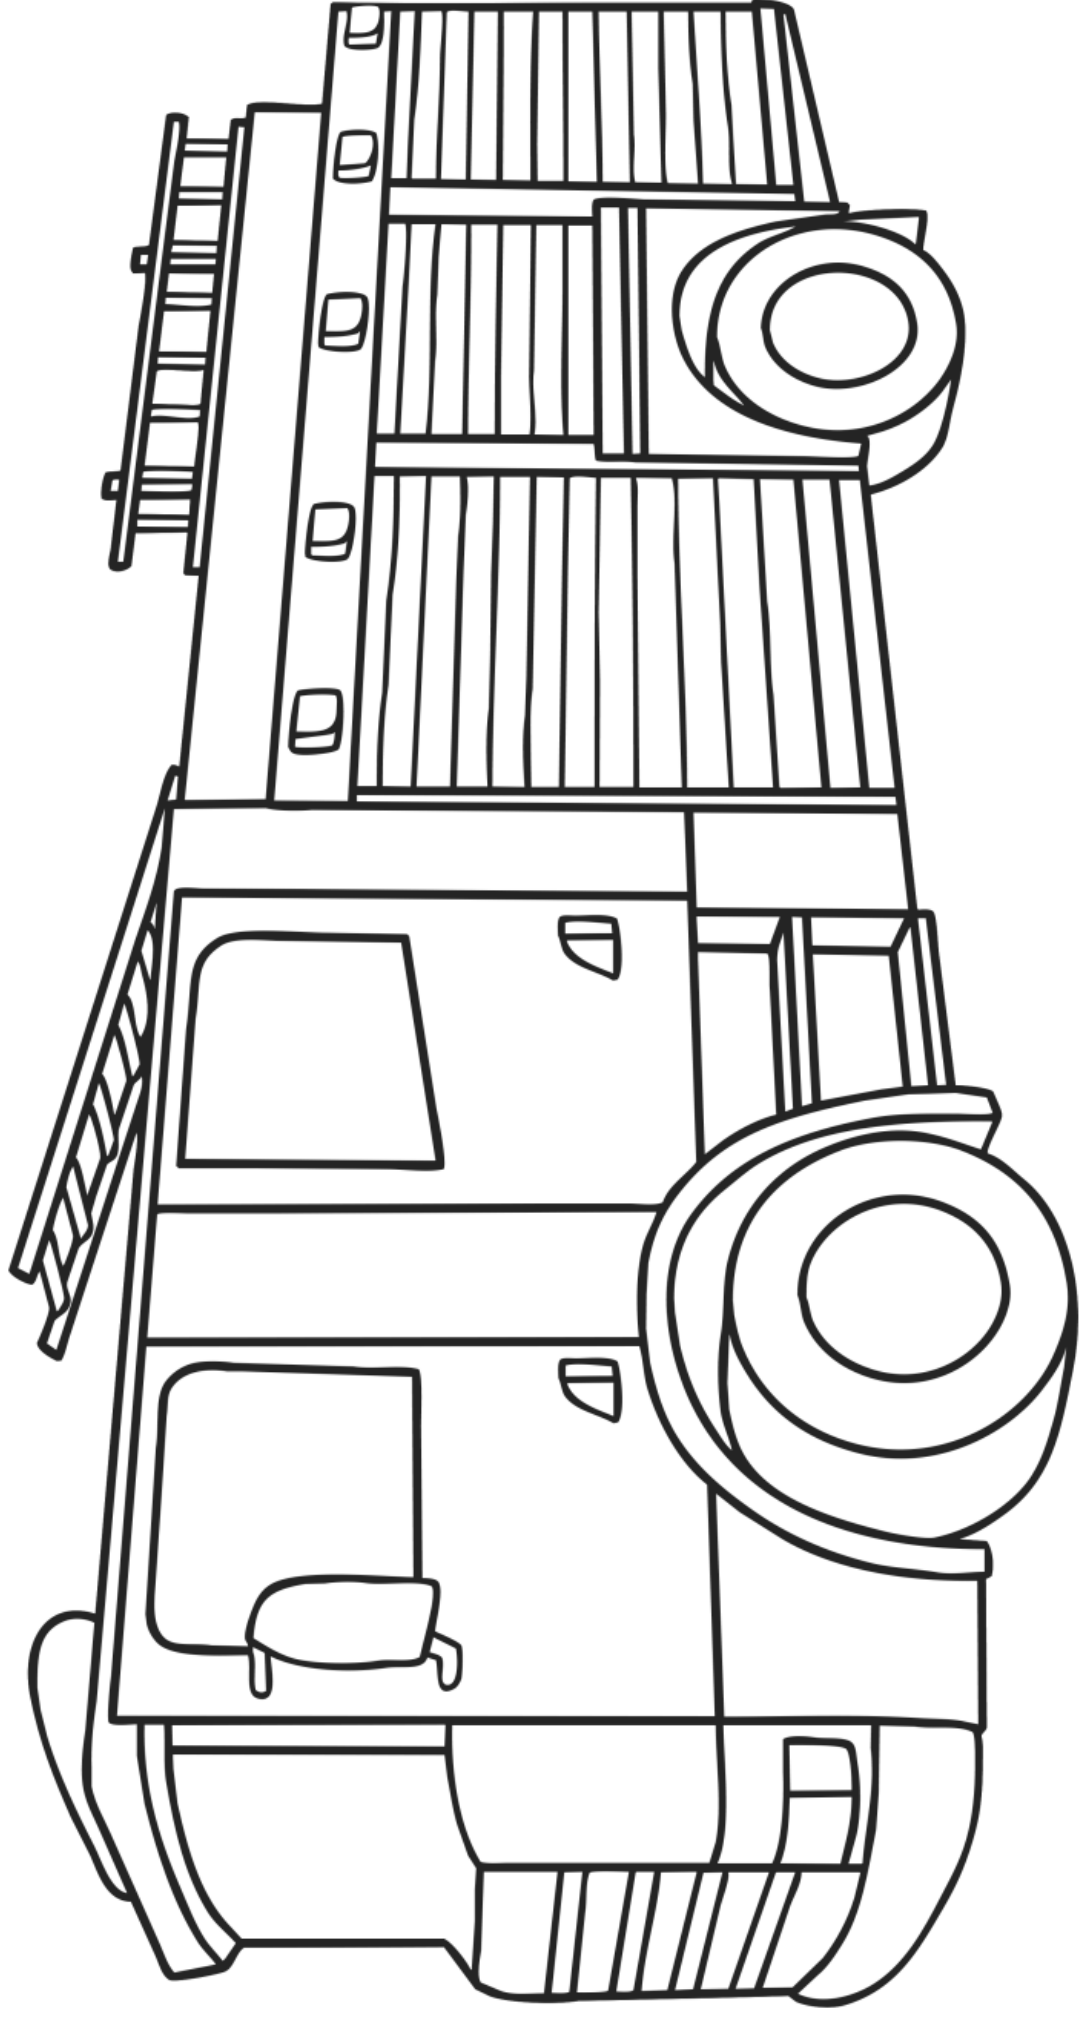

WILF's:

I can engage in watching videos of fire fighters at work
I can make comments on what I can see

Watch some videos of the roles that firefighters do -
<https://www.youtube.com/watch?v=jwIj6Ap6xZA> There are plenty on Youtube, but attached is an example. You may wish to ask your learner throughout the video what they can see, what the firefighters are doing etc.

I have also attached a firefighter word mat which your learner may be able to use as they look at videos of firefighters and also some firefighter themed activity sheets that your learner may wish to access.
